³ A practice whereby emergency responders staff several types of emergency response vehicles simultaneously within a work period. The type and scope of emergency (i.e. structure fire, vehicle accident) dictate which type of emergency response vehicle the emergency responders staff for an incident.

⁴ Medic 2 is staffed eight hours a day (Monday through Friday) for non-emergency transports only.

⁵ The Rescue unit is staffed with a minimum of one technical rescue specialist, one hazardous materials specialist and one firefighter.
